

The health and safety of all ASGW conference participants is our highest priority. To that end, ASGW is excited to provide both the classic ASGW onsite experience as well as webcast options for many of the sessions for remote attendance. To mitigate COVID 19 risks for onsite attendees, ASGW leadership:

- Strongly encourages all who are able to get vaccinated;
- Will require masks for all indoor events (per CDC guidance at the time of the conference);
- Is working closely with the hotel to ensure enhanced cleaning and additional hand sanitation stations. Hotel policy requires staff to either be fully vaccinated or to wear masks;
- Will limit room capacity in sessions;
- Will closely follow changes in CDC guidelines and will update approaches accordingly.

For further information, see the [CDC website](#).
